LIMITS OF WORK REQUESTED FOR COURTESY INSPECTIONS:			
REASON FOR REQUEST:			

I, as the owner or owner's agent of this property, hereby state that I have read and agree with the following requirements: I request to start construction work in which a building permit has not been completely finalized. I have obtained a demolition permit if the scope of work covers the removal of interior non-structural elements within the building. I have submitted a building permit application and plans for the project, which are currently in the plan review process. I agree to call for courtesy inspections for the work described in this application. I fully understand that this inspection is provisional in nature is subject to further review after the building permit is secured, and that no work may be completed if it would remove the opportunity for additional inspections to be done after the building permit is finalized. All work completed and reviewed under this courtesy inspection is done at the risk of the owner and may be required to be completely revised or replaced at owner's sole expense if necessary to confirm compliance with the final building permit or other applicable rule or regulation.
