PROJECT DESCRIPTION

Conditional Use Permit No. 2022-22 is a request by Carolina Gonzalez to establish a beauty salon specializing in lash extensions, waxing, and facials. The use will occupy approximately 1,450 square feet of an existing 2,500 square foot building, which also contains the Nova Esthetix beauty salon. Per the site plan in Exhibit "A", there are a total of three buildings located on the project site, two of which are currently vacant. All buildings share a parking lot containing 24 stalls. Per the Floor Plan in Exhibit "B", the unit will contain six stations, along with a waiting area, a break room for staff, and two bathrooms. No exterior modifications are proposed as part of the submittal.

According to the Operational Statement in Exhibit "C", the facility will contain six employees, operating Monday through Sunday, 8:00 a.m. to 6:00 p.m. Per the Operational Statement the applicant expects to serve up to 25 clients per day, with appointments scheduled so as to reduce customer wait times and use of the shared parking field.

RELATED PROJECTS

Conditional Use Permit No. 2009-46: A request by Benjamin Pacheco to establish a beauty/hair salon in a 2,483 square foot existing building in the P-A (Professional / Administrative Office) zone. The site is located at 300 West Caldwell Avenue. (APN: 123-240-009). The proposal was approved by the Visalia Planning Commission on January 25, 2010.

PROJECT EVALUATION

Staff recommends approval of Conditional Use Permit No. 2022-22 as conditioned based on the project’s consistency with the Visalia General Plan and the Zoning Ordinance.

Land Use Compatibility

The Visalia Zoning Matrix identifies uses such as Barbers, Hairstylists, and Cosmeticians as conditionally permitted within the O-PA Zone, requiring submittal and approval of a Conditional Use Permit (CUP). Through the CUP process, potential impacts can be addressed thereby ensuring compatibility between the proposed use and existing surrounding uses.

A mixture of retail, office, medical, and service type uses are currently located within the vicinity of the project site, including an existing beauty salon situated within the same building as the proposed use. Parking needs for the use will be satisfied by the parking field depicted in Exhibit “A”, which contains sufficient stalls to serve the existing Nova Esthetix salon and proposed use. Given the above, staff has concluded that the proposed use will not have a negative impact on the project site and surrounding area.

Parking

The parking requirement for a beauty salon use is two parking stalls per workstation provided. Based on this requirement and the six massage stations proposed, a total of 12 parking spaces shall be required for the use. Per e-mail correspondence with the applicant included in Exhibit “C”, the existing Nova Esthetix beauty salon contains only one station, requiring an additional two parking stalls. As such, the total parking demand is 14 stalls.

The existing parking field depicted in Exhibit “A” provides 24 parking stalls, more than required by the existing and proposed uses. This leaves 10 stalls for use by the remaining buildings onsite, once they are fully occupied. Future uses shall be reviewed during Site Plan Review, Building Permit, and/or Business License processes to ensure that operations do not exceed available parking for the project site.

Environmental Review

The requested action is considered Categorical Exempt under Section 15301(a) of the Guidelines for the Implementation of the California Environmental Quality Act (CEQA). (Categorical Exemption No. 2022-50). The exemption is appropriate as the use will occupy an existing structure. All public utilities and infrastructure are already in place.

RECOMMENDED FINDINGS

1. That the proposed project will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity.
2. That the proposed conditional use permit is consistent with the policies and intent of the

General Plan and Zoning Ordinance. Specifically, the project is consistent with the required findings of Zoning Ordinance Section 17.38.110:

- a. The proposed location of the conditional use permit is in accordance with the objectives of the Zoning Ordinance and the purposes of the zone in which the site is located.
 - b. The proposed location of the conditional use and the conditions under which it would be operated or maintained will not be detrimental to the public health, safety, or welfare, nor materially injurious to properties or improvements in the vicinity.
3. That the project is considered Categorical Exempt under Section 15301 of the Guidelines for the Implementation of the California Environmental Quality Act (CEQA) for minor alterations in land use limitations. (Categorical Exemption No. 2022-50).

RECOMMENDED CONDITIONS OF APPROVAL

1. That the project shall be developed consistent with the comments and conditions of Site Plan Review No. 2022-141, incorporated herein by reference.
2. That the site shall be developed in substantial compliance with the approved site plan and floor plan as shown in Exhibits "A" and "B".
3. That the site shall operate in substantial compliance with the operational statement as stated in Exhibit "C". Any changes to the operation shall be subject to review by the City Planner and may subsequently be required to be reviewed by the Planning Commission.
4. All new building signage shall require a separate building permit and shall be designed consistent with Visalia Municipal Code Chapter 17.48 (Sign Ordinance).
5. That all other federal and state laws and city codes and ordinances be complied with.

APPEAL INFORMATION

According to the City of Visalia Zoning Ordinance Section 17.02.145, an appeal to the City Council may be submitted within ten days following the date of a decision by the Planning Commission. An appeal with applicable fees shall be in writing and shall be filed with the City Clerk at 220 N. Santa Fe Street, Visalia CA. The appeal shall specify errors or abuses of discretion by the Planning Commission, or decisions not supported by the evidence in the record. The appeal form can be found on the city's website www.visalia.city or from the City Clerk.

- 17.38.130 Effective date of conditional use permit.
- 17.38.010 Purposes and powers.

In certain zones conditional uses are permitted subject to the granting of a conditional use permit. Because of their unusual characteristics, conditional uses require special consideration so that they may be located properly with respect to the objectives of the zoning ordinance and with respect to their effects on surrounding properties. In order to achieve these purposes and thus give the zone use regulations the flexibility necessary to achieve the objectives of this title, the planning commission is empowered to grant or deny applications for conditional use permits and to impose reasonable conditions upon the granting of such permits.

17.38.020 Application procedures.

- A. Application for a conditional use permit shall be made to the planning commission on a form prescribed by the commission which shall include the following data:
 - 1. Name and address of the applicant;
 - 2. Statement that the applicant is the owner of the property or is the authorized agent of the owner;
 - 3. Address and legal description of the property;
 - 4. The application shall be accompanied by such sketches or drawings as may be necessary by the planning division to clearly show the applicant's proposal;
 - 5. The purposes of the conditional use permit and the general description of the use proposed;
 - 6. Additional information as required by the historic preservation advisory committee.
 - 7. Additional technical studies or reports, as required by the Site Plan Review Committee.
 - 8. A traffic study or analysis prepared by a certified traffic engineer, as required by the Site Plan Review Committee or Traffic Engineer, that identifies traffic service levels of surrounding arterials, collectors, access roads, and regionally significant roadways impacted by the project and any required improvements to be included as a condition or mitigation measure of the project in order to maintain the required services levels identified in the General Plan Circulation Element.

- B. The application shall be accompanied by a fee set by resolution of the city council sufficient to cover the cost of handling the application.

17.38.030 Lapse of conditional use permit.

A conditional use permit shall lapse and shall become void twenty-four (24) months after the date on which it became effective, unless the conditions of the permit allowed a shorter or greater time limit, or unless prior to the expiration of twenty-four (24) months a building permit is issued by the city and construction is commenced and diligently pursued toward completion on the site that was the subject of the permit. A permit may be renewed for an additional period of one year; provided, that prior to the expiration of twenty-four (24) months from the date the permit originally became effective, an application for renewal is filed with the planning commission. The commission may grant or deny an application for renewal of a conditional use permit. In the case of a planned residential development, the recording of a final map and improvements thereto shall be deemed the same as a building permit in relation to this section.

17.38.040 Revocation.

Upon violation of any applicable provision of this title, or, if granted subject to a condition or conditions, upon failure to comply with the condition or conditions, a conditional use permit shall be suspended automatically. The planning commission shall hold a public hearing within sixty (60) days, in accordance with the procedure prescribed in Section 17.38.080, and if not satisfied that the regulation, general provision or condition is being complied with, may revoke the permit or take such action as may be necessary to insure compliance with the regulation, general provision or condition. Appeals of the decision of the planning commission may be made to the city council as provided in Section 17.38.120.

17.38.050 New application.

Following the denial of a conditional use permit application or the revocation of a conditional use permit, no application for a conditional use permit for the same or substantially the same conditional use on the same or substantially the same site shall be filed within one year from the date of denial or revocation of the permit unless such denial was a denial without prejudice by the planning commission or city council.

17.38.060 Conditional use permit to run with the land.

A conditional use permit granted pursuant to the provisions of this chapter shall run with the land and shall continue to be valid upon a change of ownership of the site or structure that was the subject of the permit application subject to the provisions of Section 17.38.065.

17.38.065 Abandonment of conditional use permit.

If the use for which a conditional use permit was approved is discontinued for a period of one hundred eighty (180) days, the use shall be considered abandoned and any future use of the site as a conditional use will require the approval of a new conditional use permit.

17.38.070 Temporary uses or structures.

- A. Conditional use permits for temporary uses or structures may be processed as administrative matters by the city planner and/or planning division staff. However, the city planner may, at his/her discretion, refer such application to the planning commission for consideration.
- B. The city planner and/or planning division staff is authorized to review applications and to issue such temporary permits, subject to the following conditions:
1. Conditional use permits granted pursuant to this section shall be for a fixed period not to exceed thirty (30) days for each temporary use not occupying a structure, including promotional enterprises, or six months for all other uses or structures.
 2. Ingress and egress shall be limited to that designated by the planning division. Appropriate directional signing, barricades, fences or landscaping shall be provided where required. A security officer may be required for promotional events.

3. Off-street parking facilities shall be provided on the site of each temporary use as prescribed in Section 17.34.020.
 4. Upon termination of the temporary permit, or abandonment of the site, the applicant shall remove all materials and equipment and restore the premises to their original condition.
 5. Opening and closing times for promotional enterprises shall coincide with the hours of operation of the sponsoring commercial establishment. Reasonable time limits for other uses may be set by the city planner and planning division staff.
 6. Applicants for a temporary conditional use permit shall have all applicable licenses and permits prior to issuance of a conditional use permit.
 7. Signing for temporary uses shall be subject to the approval of the city planner.
 8. Notwithstanding underlying zoning, temporary conditional use permits may be granted for fruit and vegetable stands on properties primarily within undeveloped agricultural areas. In reviewing applications for such stands, issues of traffic safety and land use compatibility shall be evaluated and mitigation measures and conditions may be imposed to ensure that the stands are built and are operated consistent with appropriate construction standards, vehicular access and off-street parking. All fruits and vegetables sold at such stands shall be grown by the owner/operator or purchased by said party directly from a grower/farmer.
 9. Fruit/Vegetable stands shall be subject to site plan review.
- C. The City Planner shall deny a temporary use permit if findings cannot be made, or conditions exist that would be injurious to existing site, improvements, land uses, surrounding development or would be detrimental to the surrounding area.
- D. The applicant or any interested person may appeal a decision of temporary use permit to the planning commission, setting forth the reason for such appeal to the commission. Such appeal shall be filed with the city planner in writing with applicable fees, within ten (10) days after notification of such decision. The appeal shall be placed on the agenda of the commission's next regular meeting. If the appeal is filed within five (5) days of the next regular meeting of the commission, the appeal shall be placed on the agenda of the commission's second regular meeting following the filing of the appeal. The commission shall review the temporary use permit and shall uphold or revise the decision of the temporary use permit, based on the findings set forth in Section 17.38.110. The decision of the commission shall be final unless appealed to the council pursuant to Section 17.02.145.
- E. A privately owned parcel may be granted up to six (6) temporary use permits per calendar year.

17.38.080 Public hearing--Notice.

- A. The planning commission shall hold at least one public hearing on each application for a conditional use permit.
- B. Notice of the public hearing shall be given not less than ten days nor more than thirty (30) days prior to the date of the hearing by mailing a notice of the time and place of the hearing to property owners within three hundred (300) feet of the boundaries of the area occupied or to be occupied by the use that is the subject of the hearing, and by publication in a newspaper of general circulation within the city.

17.38.090 Investigation and report.

The planning staff shall make an investigation of the application and shall prepare a report thereon that shall be submitted to the planning commission. The report can recommend modifications to the application as a condition of approval.

17.38.100 Public hearing--Procedure.

At the public hearing the planning commission shall review the application and the statement and drawing submitted therewith and shall receive pertinent evidence concerning the proposed use and the proposed conditions under which it would be operated or maintained, particularly with respect to the

findings prescribed in Section 17.38.110. The planning commission may continue a public hearing from time to time as it deems necessary.

17.38.110 Action by planning commission.

- A. The planning commission may grant an application for a conditional use permit as requested or in modified form, if, on the basis of the application and the evidence submitted, the commission makes the following findings:
 - 1. That the proposed location of the conditional use is in accordance with the objectives of the zoning ordinance and the purposes of the zone in which the site is located;
 - 2. That the proposed location of the conditional use and the conditions under which it would be operated or maintained will not be detrimental to the public health, safety or welfare, or materially injurious to properties or improvements in the vicinity.
- B. A conditional use permit may be revocable, may be granted for a limited time period, or may be granted subject to such conditions as the commission may prescribe. The commission may grant conditional approval for a permit subject to the effective date of a change of zone or other ordinance amendment.
- C. The commission may deny an application for a conditional use permit.

17.38.120 Appeal to city council.

The decision of the City planning commission on a conditional use permit shall be subject to the appeal provisions of section 17.02.145.

17.38.130 Effective date of conditional use permit.

A conditional use permit shall become effective immediately when granted or affirmed by the council, or ten days following the granting of the conditional use permit by the planning commission if no appeal has been filed.

Quick question Carolina, do you know how many stations Nova Esthetics has? The City bases parking off how many chairs or “stations” each beauty salon has. So for example, you have 6 stations, so we’d require two parking stalls per station. Please let me know when you can, thanks!
