VISALIA
A BETTER WAY OF LIVING

The City Organization

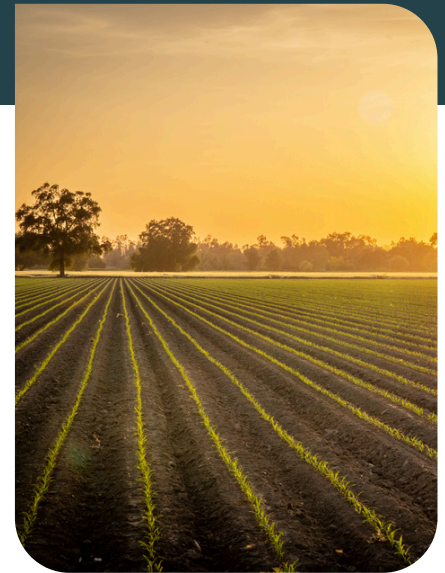

Visalia is a full-service Charter city that employs over 650 full-time employees and approximately 100 hourly employees in eight City departments. The City operates under the Council-Manager form of government with a five-member City Council elected by district who appoint the City Manager. The City's executive team includes the Assistant City Manager over Administration and department heads for Administrative Services, Fire, Police, Finance and Technology, Engineering and Building, Parks and Recreation, Planning and Community Preservation, and Public Works. Visalia owns and operates a convention center, a municipal airport, and a solid waste enterprise. The City owns and leases a 27-hole golf course and the baseball stadium occupied by Visalia Rawhide, a Minor League Single A franchise.

The Division

The City of Visalia's Engineering and Building Department serves the City by providing a wide range of engineering services to the development community. The Division is highly active, managing all facets of municipal engineering services including capital project design and construction, private development project review, traffic safety, and public works inspections. The Division oversees a multitude of improvement projects ranging from street expansions, traffic signal installations, sewer and storm drain utilities, and City building projects such as the new Council Chambers, Public Safety Building, and all emergency service buildings.

The Position

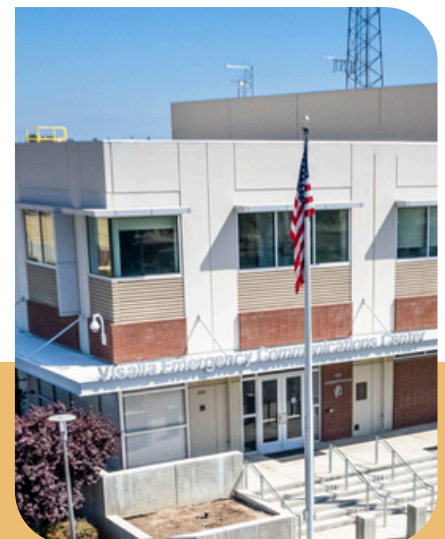

The selected candidate will be responsible for managing and developing a wide variety of engineering projects, manage the capital improvement program by preparing long-range plans, budgeting and scheduling, advertising and awarding contracts, reviewing plans and specifications, and meeting with consultants and contractors during the design and construction phase of projects. They will review, recommend and implement policies, procedures, goals, and objectives related to engineering standards and the Division's overall effectiveness. The position requires understanding of federal and state funding rules and regulations to secure, process and complete CIP. Additionally, the new City Engineer will assign, direct and evaluate the work of professional and technical engineering staff and participate in the hiring process.

Upcoming projects & Opportunities

The City of Visalia has many exciting projects planned:

- City Civic Center project, including new Council Chambers and Public Safety Building
- East Side Greenway Trail Corridor
- East Side Regional Park, including Water Recharge Basins
- Shirk Street Arterial Roadway and Sewer Trunk Line

Experience Visalia. Enhance your life.

The Ideal Candidate

The ideal candidate is an experienced engineer, confident in municipal engineering principles and capable of overseeing on-time project delivery and exhibiting leadership qualities as they direct staff in a wide variety of projects. The ideal candidate will be well versed in managing projects deriving from a multitude of local, state and federal funding programs.

Qualifications include:

- Graduation from an accredited college or university with a BS degree in the engineering or architectural field related to the assignment.
- Extensive experience in the engineering or architectural field related to the assignment, including supervisory experience of employees.
- Administrative experience in municipal government is preferred.
- Possession of or ability to obtain a valid California driver's license by time of appointment.
- Registration as a Professional Engineer in the State of California within 6 months of hire.
- Registration as a Licensed Traffic Engineer in the State of California is desirable.
