

PARKING RESTRICTIONS

PURPOSE

The purpose of NO PARKING signage is to safely control vehicular travel from entering the site of a Special Event and/or reserve public parking space for use by the Special Event. Signs also serve as notification to the public so that they may make alternate parking plans for day and time of event.

NO PARKING REQUIREMENTS

When restrictions for on-street parking and/or parking spaces within a public parking lot are a necessary part of the Traffic Control Plan, NO PARKING signs are required and shall adhere to the following:

- NO PARKING signs are to be in place 24-hours in advance of event to notify the public.
- Use City provided [NO PARKING template](#). Template in Excel format to be provided at time of Encroachment Permit approval.
- No part of sign may be handwritten. Use same font and size as given on template.
- Signs are to be placed either on traffic cones or flexible traffic delineators set on curb, at every other parking stall line. When parking stall lines are not marked, signs shall be spaced no more than 100-150' apart.
- When an entire public parking lot is restricted, signs may be placed at the entrance.
- See **Exhibit** below for example placement of NO PARKING signs.

Exhibit - Example of On-Street Parking Restrictions
