

Geographic Information (GIS) Systems Analyst

Monthly Salary \$7,888- \$9,917

Deadline: Open until filled

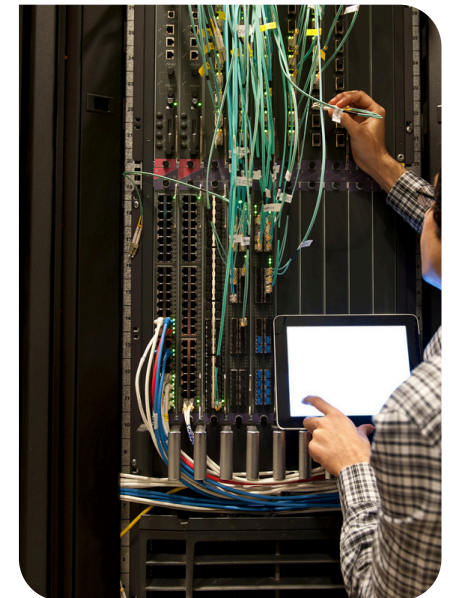

The Division

The City of Visalia's GIS Division, which works closely with the Information Services Division, is part of the Finance Department and serves the community of Visalia and all City Departments by providing GIS resources which are utilized to make every day decisions. The Division is responsible for maintaining all base mapping layers, assisting all users with their GIS needs, supporting applications which require GIS map integration, and many other GIS related functions. The division's staff is committed to producing quality GIS resources which can be used by other City Departments as well as the Public.

The Ideal Candidate

The ideal candidate will have a solid background in Geospatial Information Systems (GIS) fundamentals typically found in graduates of an accredited program with an emphasis in GIS, Geography, Life Sciences, Civil Engineering, Computer Science or related field. The ideal candidate will have experience with all ESRI products including ArcGIS Enterprise, ArcGIS Desktop and ArcGIS Pro and related Add-ins as well as SQL database, and will utilize their skills in these areas to successfully develop robust solutions. The ideal candidate will be organized and be able to work on multiple projects simultaneously, possess good communication skills which are required to communicate with other departments and the general public, and be resourceful in determining hard to find solutions to GIS related problems. Finally, the ideal candidate must be willing and have a desire to continue learning and be mentored in the skills necessary to make the GIS Division successful.
